Classic, Hybrid & Volume Lashes

Consultation

Please ensure you let us know if you have any medical conditions or allergies prior to treatment, particularly:

Heart condition, cancer, epilepsy, tumours, diabetes, pregnancy/breast feeding, inflammation/infection or skin diseases, semi-permanent makeup/microblading (2 weeks), asthma, glaucoma, eye surgery (2 years), watery eyes, twitchy eyes.

Before your treatment

Patch test required 72 hours prior to first treatment and repeated if a break of more than 6 months since your last treatment or a change in medical condition/history which warrants a repeat test.

Do not wear waterproof mascara for 24 hour prior to treatment and no eye make up on the day.

Avoid applying any oily products around the eyes.

Avoid caffeinated drinks 4 hours prior to your appointment as this can cause your lashes to flutter.

Remove contact lenses and bring your glasses.

Do not arrive for your appointment with a developing spray/cream tan.

After your treatment

Do not get your lashes wet for 24 hours.

Avoid steam, saunas/sunbeds and swimming for 48hours.

Avoid wearing contact lenses and touching your lashes.

Avoid any oil based products around the eyes for the duration of your time wearing extensions.

Do not use lash curlers or mascara unless it is specifically formulated for extensions.

Ensure lashes are not disturbed or manipulated into different positions. (when sleeping, cleansing the face, applying cosmetics/moisturiser).

Brush your lashes twice a day to ensure they stay in the desired position.

Use the advised aftercare once daily to keep your lashes clean and retain your desired results and longevity.

Repeat the service no more than every 2-3 weeks with infills. If less than 50% of lashes are in tact at your infill appointment, you will be charged for a full set.

If any irritation or redness occurs, apply a cold compress. If symptoms persist, contact a medical professional and us. We can remove the lashes in the unlikely event of a adverse reaction.
