& Mini Facial (1 hour 30 minutes) £120.00

Facials

Where science meets touch….
Louise is a bit of a Maverick; never "settling" for the old school ways. She likes mixing it up, and her facial treatments are a great example of where she showcases her knowledge and skill, combining prescriptive skincare and technologies to customise your facial treatment to what YOUR skin actually NEEDS!

Let's start by assessing your skin, scientifically – Gone are the days when a quick look through a Mag- Lamp will suffice. Louise understands that clients want clear, accurate and measurable results. A benchmark starting point from which your treatment plan is agreed.

Introducing SknTec Pro Skin Analysis (30 minutes) £40.00

Let's talk skin type! A skin analysis will determine the best products to treat your skin's needs. We discuss a workable and achievable skin care routine and treatment plan so you will be looking radiant in no time! Skin Analysis using SknTec Pro measures hydration in your skin and offers a comprehensive deep-dive into your skin health. This is not a compulsory step, but a valuable benchmark of where you are starting from. Repeat this after a course of treatment to see the results for yourself!

The Intelligent Touch Facial
(1 Hour) £85.00

"This is smarter than any standard facial –
A beautiful marriage of everything you love about the Eminence Organic Facial, with the addition of CACI's Sonic Peel or Orbital Abrasion Skin Exfoliation and CACI product penetration for epidermal heaven".
Why it works: Because a manual exfoliation is superficial and easily achieved as part of your home care routine. By harnessing the benefits of CACI's deeper, yet gentle exfoliating tools, we can maximise product absorption for dewy radiance for days to come. The perfect little maintenance facial whilst on a budget.

The Skin Optimisation Treatment
(1 Hour) £85.00

"This is for you if you're looking for a slightly more results-driven experience. Allow the power of microcurrent to awaken your facial muscles, using the microtouch gloves. Delivering the current in this way gently enables lymphatic drainage, whilst the potent element of masks and serums from Eminence Organic treat a number of skin concerns".

Why it works: *This is where customisation meets performance, which pairs beautifully with contour-sculpting Microcurrent & Collagen promoting LED. Loved by Baby Boomers & Gen-X and Millennials alike. Something for everyone here!*

The Dermal Intelligence Facial
(45 minutes) £110.00
"Imagine a treatment where the level of customisation is as effortless as the results! Sound good? No-needle mesotherapy.
The possibilities are endless and exciting!
This is something you can't get everywhere."
Why it works: *This facial is a method; not just a treatment. Elevated, expert-level, a bit more niche Electroporation delivers sterile serums directly into the cells in the dermis, where they actively set to work to bring science-backed results.*

Skin Specialist Facial (1 hour) £67.00
Because there are some things that were always perfect and don't need fixing or changing. I may embrace change and advancement, but I respect those who just want absolutely pure touch therapy and this facial includes Hungarian Massage Techniques and the Eminence protocol which is loved Wordwide.

Pregnancy Facial (45 minutes) £72.00
For those times when you need some special pampering, and special care. Louise is qualified in Pregnancy Massage and knows how to position you safely for your facial treatment. Hormonal changes during pregnancy can take its toll on your skin. Allow Louise to offer her expert advice during this very special time. Your journey will start with a foot soak and gentle scrub.
Please note, some more advanced technologies will be omitted from your treatment during your pregnancy

Add-ons – Stay a while longer for a little less
Hands, Feet and Scalp Massage
(30 minutes) £30.00 as an add on - Normally £40/30 minutes
